PRODUCT REVIEW .COM.AU 2021 AWARDS WINNER
SPLIT SYSTEM AIR CONDITIONERS

Named by ProductReview as the best split system of 2021, the Bronte® split system incorporates advanced fan blade technology to efficiently deliver an industry leading, long reach airflow. Coming in both reverse cycle and cool only models, the Bronte® is best suited to medium to larger spaces.

HIGH POWER OPERATION

Provides 15mins of boosted power allowing you to quickly heat or cool your home before returning to normal operation.

JET AIR TECHNOLOGY

Advanced fan blade technology, utilised in the development of jet engines, efficiently delivers a powerful yet quiet and evenly distributed airflow.

SILENT OPERATION

Set periods of time where the unit will operate with even further reduced noise levels.

CLEAN AIR TECHNOLOGY

Captures allergens such as dust, pollen and fine smoke particles before neutralising them and any odour causing bacteria and viruses while also inhibiting growth of mould within the unit.
